Would you please make some minor changes to the attached?
 We are using it in a presentation and had comments that the colors are hard to see.
 Can you please make the red boundary a thick black line and the yellow boundary a thick blue line?
 Thanks.
 Carolyn

Carolyn,

Please see the Draft ROW VOC soil gas figures attached.

Let me know if you have any other questions or comments.

Thank you,
 Chris

Subject: Confidential: Soil gas iso-concentration figures

Hi Brad,
 Would you please make some revisions to the soil gas iso-concentration figures?
 Besides the ROW soil gas data, IWM included sub-slab data to draw the isopleths.
 While these data/lines expand the understanding of the extent of contamination, they also reveal information about sub-slab conditions of individual homes, which should remain confidential.
 As long as the figures are labeled as representing VOC soil gas in the ROWs, the additional information can be omitted.
 Also, if you can make the revisions on Monday, that would be optimal as we will be posting the VI investigation information Tuesday.
 Please let me know if you would like to discuss.
 Thanks.
 Carolyn
